BASIC COURSE INFORMATION**

10. Describe the techniques used to manipulate genetic material in order to understand the importance of biotechnology to humankind.

Lab Requirements:

For face to face courses only: Safety goggles and nitrile gloves will be provided by Wilmington University. All persons in the lab are required to wear closed toed, non-perforated shoes and personal protective equipment. Long hair needs to be tied back. Students who are not dressed appropriately will not be allowed to participate in that day's laboratory activity, will be asked to leave, and will not have the opportunity to make up the experiment. Before any lab work can be performed, students will sign a contract confirming that they understand and will follow all safety rules, including waste handling and other important protocols. Any student found performing unauthorized experiments, failing to respond to instructions in a timely fashion, or behaving in an unsafe mann uns
